## Meet Jennifer...

Jennifer and her family moved to Kitsap County after visiting on vacation in 2003. They fell love with the intense beauty and majesty of the surrounding mountains, waterways, forests and wildlife as well as the number of outdoor recreational opportunities. They adore the community as well because it is diversified and has so much to offer.

Jennifer joined Windermere in early 2004. Choosing the company most well known for it's **integrity, honesty and branded name** was most extremely important to Jennifer as she wanted to only work with a company who had values that matched her own. She is passionate about finding the "right" home for her Buyer's not just any home to make a sale. As for her Seller's she excels in pricing the property for optimal outcome both for value and shortest marketing time. **She understands the Buying and Selling process thoroughly, and has both knowledge and strong negotiation skills needed when it comes to either end of the spectrum.**

Jennifer has pursued further education to allow her to specialize in certain areas to allow her to provide only the best service to you. She has earned her **ABR**(Accredited Buyers Agent), **GRI**(Graduate of the Real Estate Institute), **SHS**(Senior Housing Specialist), has completed all of her Broker's classes and is currently taking classes for **CRS**(Certified Residential Specialist) which is the highest national credential she can get. She is a state

licensed Real Estate Instructor which allows her to share and hopefully spread her love for real estate to others Realtors.

*Jennifer stands out being one of the less than 1% of the Realtors in Kitsap County area have all of these qualifications.*

Her promise to you is her commitment of excellent standard of ethics, customer care and service, honesty, professional and knowledgeable guidance and some fun too because she realizes that this is possibly the largest purchase you and your family have or will ever make in you lives and it should be as stress free and fun as possible!

Jennifer understands the importance of family and community and volunteers to community service projects. She also understands the fact that that the **clients interests always come first!** She strives to have her clients for life and has made it a habit not just to listen but to actually hear and respond to them both promptly and appropriately even after your transaction is complete!

The impact of service to her clients is evident through the many family's lives she has touched and helped achieve their dreams already. In return those **clients refer their friends, colleagues and family to her so she can help them as well** resulting in a strong referral driven business!
